TURFGRASS MIXTURES: SPORTS USE

SPORTSCLUB PACIFIC 4-SEASONS 70/30 MIX *8-10 lbs/1,000 sf*

35% Rhambler Tall Fescue
35% 3rd Millennium Tall Fescue
15% Paragon GLR Perennial Ryegrass
15% Pangea GLR Perennial Ryegrass

This mix offers the water-saving and tough-leaf tissues of turf-type fescue with two varieties of perennial ryegrass selected for their salt tolerance and exceptional winter growth activity. With higher maintenance and taking advantage of opportunities for overseeding, this mix can provide a dense, uniform, drought-tolerant sports turf surface all year round. Wear tolerant. Salt tolerant.

*

SPORTSCLUB PACIFIC 4-SEASONS RYE BLEND *8 lbs/1,000 sf*

25% Arena Perennial Ryegrass
25% Coliseum Perennial Ryegrass
25% Paragon GLR Perennial Ryegrass
25% Pangea GLR Perennial Ryegrass

Most elite varieties of perennial ryegrass establish quickly and are readily overseeded. The exceptional summer heat tolerance and winter growth of the Arena and Coliseum combined with the disease resistance of the Paragon and Protégé varieties add year-round value to this blend.

*

SPORTSCLUB FAST TRACK RYE BLEND *8 lbs/1,000 sf or 350 lbs/acre*

34% Buccaneer II Perennial Ryegrass
33% Paragon GLR Perennial Ryegrass
33% Pangea GLR Perennial Ryegrass

For rapid establishment and quick recovery, this affordable 3-way perennial rye blend can't be beat. Takes close mowing and responds quickly to overseeding.

*

SEED & SUPPLIES FOR NORTHERN CALIFORNIA

SPORTSCLUB SALINE PERENNIAL RYE BLEND *8 lbs/1,000 sf or 350 lbs/acre*

- 34% Fiesta 3 Perennial Ryegrass
- 23% Manhattan V GLR Perennial Ryegrass
- 33% Manhattan VI Perennial Ryegrass

In situations where salty soils, water quality, or other environmental factors pose a challenge to typical varieties of perennial ryegrass, this selection provides the best chance for success in terms of germination, seedling growth, and long term survival. Overseeding.

*

SPORTSCLUB 80/20 RYE/ BLUE MIX *8 lbs/1,000 sf or 350 lbs/acre*

- 27% Pangea GLR Perennial Ryegrass
- 26% Paragon GLR Perennial Ryegrass
- 26% Manhattan 5 GLR Perennial Ryegrass
- 10% Brooklawn Kentucky Bluegrass
- 10% Bonaire Kentucky Bluegrass

A combination of fast-growing perennial ryegrass and sod-knitting Kentucky bluegrass can help maintain the hardest working athletic fields in top condition, especially where the opportunity for cool-season overseeding with perennial ryegrass exists. Wear tolerant.

*

SPORTSCLUB 60/40 TOURNAMENT BLUE/RYE MIX *5-6 lbs per 1,000 sq.ft. or 225-250 lbs/acre*

- 20% Bewitched Kentucky Bluegrass
- 20% Midnight Kentucky Bluegrass
- 20% Bedazzled Kentucky Bluegrass
- 20% Pangea GLR Perennial Ryegrass
- 20% Paragon GLR Perennial Ryegrass

A combination of elite bluegrasses and select perennial ryegrasses has long been the playing surface of choice for sports turf managers with opportunities to keep a durable, well-groomed turf. The perennial ryes provide quick germination while the Kentucky
