

SEED & SUPPLIES FOR NORTHERN CALIFORNIA

## Seeding Rates and Mowing Guide

<b>Seeding Rate Guide</b>	
<i>Turfgrass Species</i>	<i>Pounds per 1,000 Square Feet</i>
Perennial Rye, (winter active varieties available)	6-10
Tall Fescue (including dwarf types)	10
Kentucky Bluegrass	4-5
Fine Fescues	5-6

<b>Mowing Heights for General Turf Use</b>	
<p>Grass species differ in their durability, their disease resistance and their weather tolerance – which is why our geographical region supports many different grass varieties. Each species generally performs best at the following mowing heights, although recommended heights may vary with specific uses.</p>	
<i>Cool Season Turf</i>	<i>Ideal Mowing Heights</i>
Perennial Rye (winter active varieties available)	1.5 – 2.5 inches
Tall Fescue	3.0 inches
Kentucky Bluegrass	1.5 – 2.5 inches
Fine Fescues	2.5 inches
<i>Warm Season Turf</i>	
Bermudagrass	2.0 inches
